RS4 - thoroughbred sports characteristics combined with everyday functionality

With the Audi RS4, quattro GmbH, a fully owned subsidiary of Audi AG, has independently designed its first complete vehicle, which it has developed in cooperation with Audi AG.

The RS4, which like its predecessor, the RS2, is produced exclusively as an Avant, is the absolute top-of-the-range model in the A4 class.

Based on the Audi S4, a high-performance vehicle has been created which is designed for an uncompromising sports appeal both in technical and visual terms.

The Audi RS4 impresses by virtue of its superior performance, and radiates individuality and exclusiveness thanks to the well co-ordinated high-quality materials in the vehicle interior.

This self-study programme describes the special features of the Audi RS4 only. Basic information is provided in SSP 198, which describes the Audi S4 in detail.

	Page
Body	
The Audi RS4	4
Side sills	6
Front end	8
