Dynamics and economy

The 6-speed automatic gearbox 09G sets new standards in the segment of transversely mounted multi-step automatic gearboxes

- ▶ Low weight
- ▶ Wide *ratio spread**
- ▶ Compact gearbox dimensions
- ▶ High shifting speed
- ▶ High level of shift comfort

* you will find an explanation of the terms/ paragraphs marked with an asterisk as of page 72

This Self-Study program gives general descriptions of the 09G gearbox and shows the special features in combination with the Audi A3 '04 and Audi TT.

Brief technical description

6-speed automatic gearbox using the Lepelletier planetary gear set concept.

The wide *ratio spread** of 6.05 provides flexibility in use (sport or economy mode).

Only five gear shifting components are required.

Highly compact, lightweight and powerful.

There are three gearshift modes to choose from: sport program and manual gear selection by tiptronic.

In tiptronic mode, it is possible to start in second gear.
