Supplements for the Series III and 3 cars

PREFACE

This Workshop Manual has been compiled in an endeavour to assist service personnel responsible for maintenance and overhaul, in properly maintaining the high standard of engineering achieved in the production of Rolls-Royce and Bentley motor cars.

The book is copiously illustrated with photographs and orthographic reproductions which are suitably annotated in order to provide quick reference with minimum searching.

Although all information contained in the Manual was correct when going to print, modifications which may subsequently develop will be kept up to date by means of Service Bulletins.

Information given in the latest Bulletin will supersede that given in the Section of the Manual to which it refers, until such times as the Manual is re-issued with the necessary amendments.

Instructions for the maintenance and overhaul of the S2 engine and the Refrigeration Systems fitted to the Rolls-Royce and Bentley cars are contained in individual volumes. Special Workshop Tools referred to in these publications and the Workshop Manual are listed and illustrated in a further publication.

Personnel of Rolls-Royce Service Departments at Hythe Road, Willesden, London N.W.10, and at Pym's Lane, Crewe, are always prepared to answer queries or give advice on individual servicing problems, but it will assist them if queries are accompanied by the chassis number of the car.

Information contained herein applies to the following cars:

Rolls-Royce	Bentley
Silver Cloud	S1
Silver Cloud Long Wheelbase	S1 Long Wheelbase
Silver Cloud II	S2
Silver Cloud II Long Wheelbase	S2 Long Wheelbase
Phantom V	Continental S1
	Continental S2

The following publications are available for reference in conjunction with this Manual:
