

Service Manual for Chery QQ6

(Electrical, Circuit)

After Sales Service Department of Chery
Automobile Sales Co., Ltd

TABLES OF CONTENTS

Chapter One	Control Principle of Some Systems	4
I.	Control Principle of Starting System	4
1.	Starting System	4
2.	Charging System	4
3.	Troubleshooting and Elimination	5
3.1.	The starter not operate, low power output or its fuse burnout	5
3.2.	Generator not work or low power output	5
II.	BCM Control	6
1.	Ceiling Lamp Control	6
2.	Window Glass UP/DOWN Function	6
3.	Central Door Lock	6
4.	Anti-theft Alarm System	7
III.	Fog and Position Lamps Control	9
1.	Principle of Fog Lamp Control	10
2.	Principle of Clearance Lamp Control	11
3.	Night Light and Electric Headlamp Control	11
IV.	Headlamp Control	11
1.	Principle of low beam lamp control	12
2.	Principle of high beam lamp control	12
3.	Principle of the passing lamp control	13
V.	Turn Signal Lamp Control	13
1.	Principle of turn signal lamp control	14
VI.	Electric Rear-View Mirror	14
1.	Control principle	15
VII.	Wiper Motor Control	15
1.	Control principle	16
2.	Wiper return and stop function	16
Chapter Two	Schematic Diagrams of Circuit Control	17
I.	Definition of Main Harness Connectors	17
II.	Drawing Description	21
1.	Main Symbol Description	21
2.	Drawing Description	21
3.	Definition of Main Controller	22
4.	Position of Body Grounding Points	22
III.	Schematic Diagram of Main Electric Box and Module Position	24
IV.	Electrical Box Description	25
1.	Instrument Electrical Box	25
2.	Compartment Electrical Box	25
V.	Schematic Diagrams of Circuit Control	26
1.	Starting and Charging System	26
2.	Electric Rear-View Mirror	27
