- MODEL YEAR GUIDE** — A guide to the part application. (prior to 1976 the guide reference is the model designation i.e., K0, K1, etc... For 1976 and above the guide reference is the last digit of the model year i.e., 1976=6; 1977=7; 1985=5 etc...)
- AREA CODE** — Area codes for parts that are unique to a particular area. Area codes are defined in the Serial Number application chart when applicable. This column will not be used in catalogs which do not include unique area codes.
- SERIAL NUMBER** — Applies to Engine or Frame serial numbers depending on the section.
The serial number of the vehicle (frame, engine, carburetor) should be checked prior to ordering parts for a specific unit. In cases where a part has been modified, the serial number of the vehicle bearing the modification is listed in the 'SERIAL NUMBER' column.
The modification parts are controlled by each pertinent serial number below:
Engine serial number — Engine group parts (Block numbers beginning with 'E').
Carburetor identification number — Carburetor component parts.
Frame serial numbers — Frame group parts (Block numbers beginning with 'F'). Serial number application chart and Serial number locations are provided.

Note: Some models may be controlled by one serial number only.

Decision for 'R' or 'L'.
'R' or 'L' in the description of a part stands for the Right hand side or the Left hand side which is decided by the forward direction of travel of the vehicle.

How To Use This Catalog

- QTY REQ** — Quantity required per unit as specified.
A. "N" in place of the quantity indicates AS REQUIRED.
B. "()" or "(/" by the quantity required indicates "optional".

HONDA CODE — The Honda Code is listed to the right of each Part Number.

- PART NUMBER** — Part number corresponding to the reference numbers and application. Several part numbers may be listed under one (1) reference number. For your convenience the current supersede chain, as of print date, has been listed for you. Supersede chains are subject to change without notice.

ADDITIONAL INFORMATION — The table of contents located at the right of each microfiche grid lists sectioned titles in alphabetical order. Some microfiche will require separate tables of contents for the Engine and Frame sections which will be noted in a sub-heading; the introduction section (Row "A") of these microfiche will have the contents of the Engine Section on even number grids and the contents of the Frame Section on odd number grids.
