WORKSHOP MANUAL

94 - 03

1994 Kia Motors Corporation

DESCRIPTION

OUTLINE OF CONSTRUCTION

The new magma diesel engine, by using the latest technological advances, is an excellent balance of output, fuel consumption, durability and quiet operation.

Its main features are.

1. Aluminum alloy cylinder head
2. Direct-drive OHC
3. Timing belt
4. New tightening method for cylinder head bolts
5. Oil baffle plate for vibration reduction
