② Index Numbers

③ Part Numbers

☆...These parts are not available as individual parts. They are only supplied as part of an assembly.

④ Code for components of assembly

Parts constituting an assembly have a (.) mark before the part name, and are listed below the name of the assembly. When the part constitutes a sub-assembly a (..) mark precedes the part name.

⑤ Description

⑥ Abbreviations

Abbreviations are given in brackets after the part name to indicate the category of special part.

H20	: Machines with H20 gasoline engine	3.0m	: Lifting height 3.0m
G1600	: Machines with G1600 gasoline engine	2.0T	: 2.0ton trucks
4D95S.W	: Machines with 4D95S.W diesel engine	D	: Diesel engine
C	: Dry clutch type machine	G	: Gasoline engine
T	: TORQFLOW type machine	OP	: Optional parts
L.H	: Left - hand side		
R.H	: Right - hand side		

⑦ Quantity

The quantity of a part needed for one truck is listed. In the case of parts constituting an assembly, the quantity needed for one assembly is listed. And code "AR" denote the part (for instance shim) to be ordered as required.

APPLICATION

This indicates the model, specification and serial numbers of trucks to which the information on the page applies.

⑧ Model

NO code : Outdoor type S : Indoor G : G Type

⑨ Power train

T.....TORQFLOW DRIVE (including T2:F2, but there is a separate page for T2 machines.)
C.....DIRECT DRIVE

⑩ Country code

C.....For USA

⑪ Applicable models

This indicates the serial numbers of trucks on which the parts on the page are used.
450050A ~ ... Applies to all models from No.450050A
(or the serial number given)

⑫ Title

This indicates the name of the unit or the name of the main part.
The abbreviation given in brackets after the title indicates the category of the unit.
