

Mercedes-Benz

# Vario Roof

P00.00-3593-00

Model R171

# Objectives

At the end of this session, you will be able to:

1. Explain how roof can be operated
2. Explain operation of front and rear windows
3. Identify and locate the major mechanical, hydraulic and electrical components
4. Perform an emergency closing procedure of the roof and rear windows
5. Identify the tools required for hydraulic testing
6. Successfully attach hydraulic tools
7. Perform diagnosis of an inoperative vario roof

These technical training materials are current as of the date noted on the materials, and may be revised or updated without notice. Always check for revised or updated information.

To help avoid personal injury to you or others, and to avoid damage to the vehicle on which you are working, you must always refer to the latest Mercedes-Benz Technical Publication and follow all pertinent instructions when testing, diagnosing or making repair.

Illustrations and descriptions in this training reference are based on preliminary information and may or may not correspond to the final US version vehicles. Refer to the official introduction manual and WIS when available.
