

Mercedes-Benz

Traction and Braking Systems Background Information

327 HO 01 Background (WJB,GC) 02-25-04

Objectives

At the end of this course, you should be able to:

- Find the dates of production for MB traction and braking systems
- List the major highlights of the 4MATIC and ASD systems
- Locate system background information on NetStar
- Locate diagnostic information on NetStar

These technical training materials are current as of the date noted on the materials, and may be revised or updated without notice. Always check for revised or updated information. To help avoid personal injury to you or others, and to avoid damage to the vehicle on which you are working, you must always refer to the latest Mercedes-Benz Technical Publication and follow all pertinent instructions when testing, diagnosing or making repair.

Illustrations and descriptions in this training reference are based on preliminary information and may not correspond to the final US version vehicles. Refer to the official introduction manual and WIS when available.

WIS document numbers shown apply to WIS Version USA/CDN at date of writing.

Reproduction by any means or by any information storage and retrieval system or translation in whole or part is not permitted without written authorization from Mercedes-Benz USA, LLC or its successors.
