## GENERAL INFORMATION

1. Whenever the terms left or right are used, it should be understood to mean from a position facing in direction of travel.
2. Throughout this manual you find common hardware, not illustrated, but listed in the description column. The service part immediately preceding a hardware listing is the part using these particular items for mounting purposes. This hardware is not included with the service part or assembly, when ordered as a replacement.
3. Sperry New Holland, a Division of Sperry Rand Corporation is continually striving to improve its products. We must, therefore, reserve the right to make improvements or changes, when it becomes practical and possible to do so, without incurring any obligation to make changes, or additions, to the equipment sold previously.

## ORDERING PARTS

1. Please submit orders on the standard Dealer Order Form and mail to your Branch Office. The form should be completely filled in and any special routing so indicated. Telephone orders, being less accurate, should be limited to "emergency situations."
2. It is requested that parts be listed in numerical sequence, using the current Sperry New Holland part numbers. It is advisable to consult the Service Parts Price List for part number supersession, package quantity and other pertinent information.
