

INSTRUCTION BOOK OWNER'S MANUAL

MD7A, MD7A/110S

**VOLVO
PENTA**

FOREWORD

Before you start your new Volvo Penta marine engine, you are advised to read through this instruction book carefully. It contains information relevant to the proper operation and maintenance of your engine.

Volvo Penta has built up an extensive service organization with service shops and specially trained personnel at your service.

Always contact your local Volvo Penta representative for advice and when in need of service and parts.

WARRANTY CERTIFICATE

A warranty certificate is supplied with each engine. It contains the warranty conditions for the engine and should be studied carefully.

Also included is a report card which is to be completed by the dealer or boat seller and forwarded to Volvo Penta.

However, if our warranty is to apply, it is an absolute condition that the measures given in the "Check and Service Scheme" are carried out and that your engine and equipment are looked after according to the instructions in this book. When in doubt, always get in touch with an authorized Volvo Penta dealer.

In all correspondence with your dealer and when ordering parts, always state the type designation and serial number of the engine and reverse gear or drive (see starboard side of engine).

Make certain that the engine's specification coincides with what is described in this instruction book.
